

FOR HIRE

ABS/ BURKE BAR - Length: 1420mm

The Burke Bar is an all-purpose demolition and construction bar. **Weight: 6.0kg.**

It is excellent for stripping formwork and particularly useful during erection of TILTBILT panels. The wide spring steel head enables manoeuvring of panels without the surface damage often caused by crow bars and similar implements. The hollow rectangular steel handle is light and sturdy and gives superior grip. *Welcomed as a great product by on-site workers.* Also available with a hand and knuckle protector - enquiries welcome.

Certified by ETRS NATA Laboratory.
Applying a downward force of 167kg at end of handle will lift a load 4.74t 50mm in from tongue edge.

"Beware of inferior copies !! Copying is a compliment..... but not a substitute for the original"

ABS/MINI BAR - Length: 1220mm

The original ABS/BURKE BAR and the MINI BAR both have a curved blade which has been engineered for more leverage than competitors. The blade is heat treated for maximum strength. Both sizes can be very useful on jobsites, *"the right tool for the right job"*. The ABS/BURKE BAR and MINI BAR are designed for the tilt-up contractor to make jobs quicker and easier. **Weight: 3.0kg.**

Certified by ETRS NATA Laboratory.
Applying a downward force of 81kg at end of handle will lift a load 1.3t 50mm in from tongue edge.

ABS/MINI BAR PLUS - Length: 1650mm
This is a Mini Bar with a 430mm extended handle. Great for stripping overhead formwork. **Weight: 4.0kg.**
