

SPARTAN-COTE CURE-SEAL-HARDENER

TO IMPRESS YOUR CUSTOMER OR LESSEE USE SPARTAN COTE TO OBTAIN A GREAT FINISH ON YOUR FLOOR.

SPARTAN-COTE is a high quality styrene-acrylate copolymer resin that cures, seals, hardens and dustproofs freshly cast concrete. It provides long lasting odour free floor protection.

SPARTAN-COTE resists yellowing and deteriorating effects of ultraviolet rays. This quality makes SPARTAN-COTE ideal where an exterior architectural finish is desired.

A one step application provides a moisture barrier which minimises efflorescence, dusting and destruction of carpet backing. It provides a good base for most mastic adhesives and coatings.

APPLICATION

Apply as a curing compound on newly poured concrete surfaces after final finish and immediately after the water sheen has disappeared from the surface. Use a Burke hand sprayer or low pressure power sprayer for best application, with these rates of coverage:

Smooth finish - 7 sq.m/litre

Rough finish - 5 sq.m/litre

When used as a sealer or dust proofer on existing concrete surfaces, the surface must be thoroughly cleaned and swept. Apply at a rate of 10 to 12 sq.m/litre. For added protection to the concrete apply a second coat at 12 sq.m./litre. Also can be applied by brushing or rolling. Drying time is 1 to 2 hours.

Clean application equipment after use with xylene.

CAUTION:
Contains xylene. Use respirator for application.

SPECIFICATIONS

When applied at the specified rate, **SPARTAN-COTE** Cure-Seal-Hardener meets and exceeds:

STANDARD

ASTM C-309, type 1, Class A & B
AASHTO M-148, Type 1, Cl. A & B

Flash point 28° C.

Keep away from sparks and open flame.

Modified formulations meet IT-C-800A, Type 1, Class 1 and Air Pollution Control Regulations.

Spartan-Cote is compatible with Burke Bond Breakers.
