

PLASTIC ACCESSORIES

SUPER SHIMS

Super Shims are used to level tilt-up panels. Super Shims are extruded from rigid, high impact plastic specially serrated to eliminate slippage. They are an excellent bearing material which will not fracture under load. Their high compressive strength provides permanent support.

- Simple to use, saving time and money on lifting day.
- Waterproof, non-staining. Will not rust.
- Unaffected by alkali, ground chemicals, micro-organisms, rot or oxidation from moisture.
- No elastomeric drift, no slipping.

WARNING:

Price may be your criteria
BUT
Quality and Stability under load
is ours, to protect your client

Super Shims have been tested by a Nata Laboratory to the working load limit 27.58 (MPa) safety factor 2.0

PANEL PACK

Each pack contains sufficient shims to level a panel.

- 12 shims, each 150mm x 100mm.
- 2 Blue (1.5mm) 4 Red (3.0mm) 6 White (6.0mm)

Also available in 10mm & 20mm sizes.

Also available individually.
